May 20, 2019

To Our Valued Customers:

As most of you are likely aware, the government increased tariffs on many products manufactured in China. Back in September, the tariff imposed was 10%. For goods arriving June 1, it will increase by an additional 15%.

For orders of materials impacted by these tariffs, these are the scenarios under which you'll be charged your current pricing:

Existing Orders	Existing open orders with allocated stock as long as they ship by June 21.
Backorders	New or existing backorders that will be filled by June 1 and ship by June 21.
New Orders	New orders against current stock (no backorders) that are placed by June 1 and ship by June 21.

Listings of the products impacted by the tariffs is included with this letter and are available at our websites:
alltile.com carpetcushions.com

We are working diligently with our suppliers to bring you the most favorable prices possible in the wake of these immediate material cost changes. Because of the short notice, we urge you to please confirm the pricing of your orders with our Customer Care team at the time you place them.

Freedom of choice is something that you will always have at All Tile and CCS. We distribute products that are manufactured throughout the world. Some are impacted by the imposed tariffs, other are not. We will do our best to communicate with you quickly and clearly. If you have any questions during this time period, please check our website for updated information. You can also contact your salesperson or our Customer Care team for information.

If you did not receive this note by email and you would like to in the future, please join our email list by typing this address into your web browser: **bit.ly/aticcsemail** and fill in the information. You'll then have access to timely information for quick moving events such as the tariffs.

Thank you for your support.

Sincerely,
All Tile and Carpet Cushions & Supplies
